| Applications          | WB,ELISA   |                 |               |
| Reactivity            | Human,Rat,Mouse  |                 |               |
| Dilution              | WB 1:500-2000 ELISA 1:5000-20000   |                 |               |
| Storage               | -20°C/1 year   |                 |               |
| Specificity           | NINJ1 Polyclonal Antibody detects endogenous levels of protein.  |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  |                 |               |
| Immunogen             | Synthesized peptide derived from part region of human protein  |                 |               |
| Uniprot No            | Q92982   |                 |               |
| Alternative names     |  |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.   |                 |               |
| Clonality             | Polyclonal   |                 |               |
| Isotype               |  |                 |               |
| Conjugation           |  |                 |               |
| Background            | ninjurin 1(NINJ1) Homo sapiens The ninjurin protein is upregulated after nerve injury both in dorsal root ganglion neurons and in Schwann cells (Araki and Milbrandt, 1996 [PubMed 8780658]). It demonstrates properties of a homophilic adhesion mole |                 |               |
