

## SNX13 rabbit pAb antibody

| Catalog No :          | Source:  | Concentration : | Mol.Wt. (kD): |
|-----------------------|--|-----------------|---------------|
| A21713                | Rabbit   | 1 mg/ml         | 105 kD        |
| Applications          | WB,ELISA   |                 |               |
| Reactivity            | Human,Mouse,Rat  |                 |               |
| Dilution              | WB: 1/500 - 1/2000. ELISA: 1/40000. Not yet tested in other applications.  |                 |               |
| Storage               | -20°C/1 year   |                 |               |
| Specificity           | SNX1 Polyclonal Antibody detects endogenous levels of SNX1 protein.  |                 |               |
| Source / Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.  |                 |               |
| Immunogen             | Synthesized peptide derived from the Internal region of human SNX1.  |                 |               |
| Uniprot No            | Q13596   |                 |               |
| Alternative names     | SNX1; Sorting nexin-1  |                 |               |
| Form                  | Liquid in PBS containing 50% glycerol, 0.5% BSA and 0.02% sodium azide.  |                 |               |
| Clonality             | Polyclonal   |                 |               |
| Isotype               |  |                 |               |
| Conjugation           |  |                 |               |
| Background            | sorting nexin 1(SNX1) Homo sapiens This gene encodes a member of the sorting nexin family. Members of this family contain a phox (PX) domain, which is a phosphoinositide binding domain, and are involved in intracellular trafficking. This endosomal pr |                 |               |
| Other                 | Gene_name: SNX1 ; Protein_name: Sorting nexin-1; Expression: Brain,Coronary artery,Liver,Muscle,Testis,  |                 |               |
