

## SCTM1 rabbit pAb antibody

| Catalog No : | Source: | Concentration : | Mol.Wt. (kD): |
|--------------|---------|-----------------|---------------|
| A21322       | Rabbit  | 1 mg/ml         | 27 kD         |

|                       |                                                                                                                                                                                                                                                           |
|-----------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Applications          | WB,ELISA                                                                                                                                                                                                                                                  |
| Reactivity            | Human,Mouse                                                                                                                                                                                                                                               |
| Dilution              | WB 1:500-2000 ELISA 1:5000-20000                                                                                                                                                                                                                          |
| Storage               | -20°C/1 year                                                                                                                                                                                                                                              |
| Specificity           | SCRT1 Polyclonal Antibody detects endogenous levels of protein.                                                                                                                                                                                           |
| Source / Purification | The antibody was affinity-purified from rabbit antiserum by affinity-chromatography using epitope-specific immunogen.                                                                                                                                     |
| Immunogen             | Synthesized peptide derived from part region of human protein                                                                                                                                                                                             |
| Uniprot No            | Q9BWW7                                                                                                                                                                                                                                                    |
| Alternative names     |                                                                                                                                                                                                                                                           |
| Form                  | Liquid in PBS containing 50% glycerol, and 0.02% sodium azide.                                                                                                                                                                                            |
| Clonality             | Polyclonal                                                                                                                                                                                                                                                |
| Isotype               |                                                                                                                                                                                                                                                           |
| Conjugation           |                                                                                                                                                                                                                                                           |
| Background            | scratch family transcriptional repressor 1(SCRT1) Homo sapiens This gene encodes a C2H2-type zinc finger transcriptional repressor that binds to E-box motifs. The encoded protein may promote neural differentiation and may be involved in cancers with |
| Other                 | Gene_name: SCRT1 ; Protein_name: Transcriptional repressor scratch 1 (Scratch homolog 1 zinc finger protein) (SCRT) (Scratch 1) (hScrt); Expression: Brain,                                                                                               |
